

USB VIDEO BAR BUILT FOR BIG IDEAS

BENEFITS

- You've never heard a USB video bar sound this good—Poly Studio has the absolute best audio quality and voice clarity in its class.
- Distracting sounds are eliminated by our patented NoiseblockAI and Acoustic Fence technologies—only found on Poly devices.
- Be more productive on both ends of your video conference with a smart camera that automatically frames the room or tracks the person speaking for deeper engagement.
- Eliminate “sneakernet” with centralized management, enabling high-scale deployments without added burden on IT.

POLY STUDIO

Meet Poly Studio, the premium USB video bar built for mid-sized rooms. Delivering the best audio quality in its class, it blocks distracting sounds that can interrupt meetings. Teams on both ends of the call catch every word with rich, powerful stereo speakers and a crystal clear microphone. With automatic speaker or group framing and automatic speaker tracking, the connection feels personal. They see all the important details, too—right down to body language and facial expressions. Easy to manage? Of course. The cloud-based management tools let IT push software updates and make settings changes without ever leaving their desk. Poly Studio. The shortcut to better huddle room collaboration.

- Acoustic Fence technology keeps voices outside the room from interrupting your calls.
- Up to 4.5 m/15 ft microphone pickup range.
- Smart-camera experiences are built in—no drivers or software needed.
- Centralized management enables high-scale deployments.
- Works with nearly any video platform.
